

**SANTA MARGARITA WATER DISTRICT  
DIRECTOR**

**SAMUEL S. JOHNSON**

**AGE: 63**

**OCCUPATION:** Director, Santa Margarita Water District

Honesty. Integrity. Experience.

Currently president of the Santa Margarita Water District (SMWD) Board of Directors, I have served on the board for 8 years. We have reduced water rates several times during my tenure and have increased water storage from 80,000,000 gallons to 207,000,000 gallons. I have fought to maintain local control of precious water resources to better serve our district.

Continuing district growth demands knowledgeable leadership. I have been privileged to serve the public for over 41 years. I have a B.S. in Civil Engineering, a Master's in Public Administration, and a broad background in the water industry. For the last 7.5 years I have managed various public works and water projects as a Consulting Engineer. Prior to this, my 30 years as Director of Public Works, City Engineer, and Consulting Engineer put me in charge of water and sewer systems serving populations of 5,000 to over 250,000.

Safe, clean, life-giving water: one of the most important resources a community needs.

I look forward to my continued role in bringing vital water resources to the people of Southern California. Please re-elect me, Sam Johnson, for SMWD Board of Directors.
